DETAILED ACTION

This office action correlates to application 10/763,182 filed 1/26/04.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-7 19-21, 25-31, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62-66, 77-79, 81, 83-88, 100, 103, 105, 111, 113, 116, 19, and 121, drawn to merge user information, are classified in class 707, subclass 104.1.
- II. Claims 8-18, 22-24, 32-43, 45, 47, 49, 51, 53, 55, 57, 59, 61, 67-76, 80, 82, 89-94, 95-99, 101, 102, 104, 106-110, 112, 114, 115, 117, 118, 120, 122, and 123, are drawn to an authentication service, classified in class 713/168.

The inventions are distinct, each from the other because of the following reasons:

Inventions in group I and group II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention in-group I has separate utility such as merge user information. The invention in-group II has separate utility such as an authentication service. See MPEP § 806.05(d).

Art Unit: 2167

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purpose as indicated is proper.

Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48 (b) and by the fee required under 37 CFR 1.17(i).
